PROJECTS

AUTOCARE-
(ASP.net, C#, MySQL) - (Jan 2022 to Apr-2022)

We have designed a web application for vehicle service center searching. This application enables any users to search service center in the city. User can get service center's location and select particular services they want. User can also request for pickup and drop service of vehicle for servicing.

WEBCHAT MESSENGER-
(HTML5, CSS3, JS, PHP, MySQL) – (Feb-23 to June-23)

This project is developed on PHP and MySQL database. We have used PHP for business logic ,MySQL as database.
